SUMMARY

As a proactive and committed undergraduate in software engineering, the focus is on Self-motivated and passionate undergraduate software engineer committed to continuous learning and delivering high-quality results. Eager to explore the dynamic field of technology and contribute to advancements and innovations.

EXPERIENCE

Esport CSGO Game Manager

Informatics Institute of Technology

- Assigned as the game manager for CSGO, responsible for handling game events and managing related activities.
- Organized and coordinated CSGO events.

Online Seller

Daraz

- Managed an online store on Daraz, focusing on sales and customer satisfaction.

EDUCATION

BEng (Hons) Software Engineering

Informatics Institute of Technology

2022 - Present Colombo 04

- Mathematics for Computing – 71
- Software Development I (Python) – 83
- Software Development II (Java) – 76
- Trends in Computer Science – 77
- Computer System Fundamentals – 87
- Web Design and Development – 83

Bachelor of Information Technology

Colombo University

2023 - Present Colombo 03

STRENGTHS

Problem Solving

Effective at tackling complex coding challenges and debugging, enhancing analytical skills.

Communication

Skilled in clear communication with team members and stakeholders to meet project requirements.

Leadership

Demonstrated leadership in guiding team members to successful project completion.

Motivated

Self-driven to continuously learn and adapt to new technologies in software engineering.

Team Player

Collaborative team member contributing to positive team dynamics and achieving common goals.

CERTIFICATION

React Certification - LinkedIn Learning

Java Certification - LinkedIn Learning

IEEE CodeSprint

Problem Solving International Hackathon

Rootcode Tech Triathlon

Leo Club Skill Up

GitHub workshop

Local A/L

Thurstan College

Result: 8'C, 1'S

 2021  Colombo 07

Local O/L

Thurstan College

Result: 1'B, 8'C

 2018  Colombo 07

PROJECTS

Alducator

3D eLearning platform Group Project

- Led a yearlong group project to develop a 3D eLearning platform from scratch, using <https://www.colorhexa.com/333333.png> <https://www.colorhexa.com/333333.png> React.js for front end and Node.js for back end.
- Integrated multiple APIs and frameworks like OpenAI and Google model view.

UniConnect

Platform for University Students to Connect

- This ongoing project aims to connect university students for assignments, surveys, etc.
- Targets both students and lecturers.

Telegram Bot

Automated Telegram Bot project

- Developed an automated Telegram bot to perform various tasks.

WhatsApp Bot

Automated WhatsApp Bot project

- Built to deepen knowledge of Node.js and explore creating chatbots on WhatsApp.

Flutter App

Dice roll Flutter App as a learning project

- Created to enhance understanding of the Flutter framework and mobile app development.

FilmFlex.ml

Movie Downloading WordPress Site

- Started to earn extra money and enhance WordPress skills, currently inactive.
