OBJECTIVE

Detail-oriented Software Engineering undergraduate with strong knowledge in .NET, ASP.NET, SQL Server, JavaScript, and modern web technologies. Skilled in full software development life cycle including analysis, design, coding, testing, and support. Seeking to contribute to innovative, large-scale applications while enhancing expertise in web/database development, project management, and emerging technologies.

EDUCATION

Bachelor of Information Technology-2024 - Present
University of Moratuwa

BSc (general) in Physical Sciences - 2022 - Present
University of Ruhuna

G.C.E. A/L - Physical Science Stream - 2020
Royal College, Colombo 07

PROJECTS

Smart Budget Managing Web Application

React.js, Express.js, MongoDB, Node.js

Built a full-stack MERN Expense Tracker Web using OOP and DSA (sorting, hash maps) for efficient expense categorization and analytics, with REST APIs and a React dashboard.

Study Time Periods Optimizing Web Application

Java, Spring Boot, React.js, Node.js

Developed a full-stack web application for optimizing and allocating study time periods across university subjects using the Simplex Method in Mathematics, enabling effective scheduling during study leave

Leisure Activity Recommending Mobile Application

React Native, Spring Boot, MySQL

Developed a full-stack mobile app that recommends personalized leisure activities based on time, budget and preferences featuring algorithms and interactive UI

Book Shop Website

HTML, CSS, JavaScript

Developed a website for a bookshop that implementing responsive design, interactive UI elements, and seamless user navigation.

CERTIFICATIONS

- Front End Web Development - UOM
- Programming in Python - UOM
- Introduction to Data Science - UOM
- AI/ML enginner - SLIIT
