Hiring Manager,
FS R&D International (Pvt) Ltd,
Colombo,
Sri Lanka.

Dear Hiring Manager,

As a passionate and motivated technology enthusiast, I am delighted to submit my application for the Software Engineer Internship at your company. Currently pursuing a Bachelor of Information Technology at the University of Moratuwa and a BSc in Physical Sciences at the University of Ruhuna, I have built a strong foundation in programming, software development, Mathematics, Statistics and Computer science. I am confident that my technical expertise, combined with my problem solving skill, analytical thinking and creativity, will make me a valuable contributor to your team.

In my recent projects, I have applied my skills to create innovative and functional applications showcasing my ability to design practical, user-friendly systems. These experiences strengthened my proficiency in languages such as Java, JavaScript, Python, PHP, HTML, CSS, C#, and R, as well as my ability to work with MySQL databases, Git, and GitHub.

I am particularly drawn to your company because of your innovative approach to . This internship presents an exciting opportunity for me to apply my academic knowledge, contribute to real-world projects, and learn from an experienced team in a professional setting.

I have attached my resume, which further details my skills, education, and certifications in AI/ML engineering, front-end development, Python programming, and data science. Please feel free to contact me if you have any questions. I look forward to the opportunity to discuss how I can contribute to your team's success. Thank you for your time and consideration.

Sincerely,
Hewage Dasun Darshaka Perera
